

## **Swiss4net celebrates 10 years of innovation and a promising future**

Today is a very good day to celebrate. For all those in love. But also for Swiss4net Holding AG. Exactly ten years ago we founded our company. The fact that we are now one of the most established fibre optic companies in Switzerland is due to a few visionaries, our current far-sighted shareholders and all our employees. Not to forget our numerous partners and friends who have supported us over the years. We are very grateful to all of them for their trust in us. Now we are celebrating our 10th anniversary and immediately making a promise: We will continue to plan, build and operate non-discriminatory FTTH point-to-point networks with full vigour and with our unique business model. Today we are already present in Chiasso, Vacallo, Morbio Inferiore, Balerna, Baden, Ennetbaden, Ascona, Pully, Morges and Unter- and Obersiggenthal. Other municipalities and cities will follow, because Switzerland needs an excellent telecom infrastructure. Everywhere.
